Basic Care
HYDRO 12.5

HYDRO 12.5 TONER 150ml

Oil free toner without stimulus

Contains 0.04% of the AHA, BHA Complex™ for removing excessive dead skin cells without causing any irritation. This oil-free toner prevents dead skin cells from blocking the pores and removes unnecessary sebum, making your skin clear.

HYDRO 12.5 PORELESS ESSENCE 40ml

Oil free essence with 3 step pore care

The three steps of pore treatment (prevention, care, and management) offered by the Pore-Minimizing Technology™ consistently helps pore management. The oil-free essence prevents keratinization caused by widening pores, as well as glycation, which dulls the skin tone.

Approved Whitening function

HYDRO 12.5 EMULSION 120ml

Oil free emulsion with botanical collagen

The Hydro-Barrier™ technology maintains vitality and an adequate level of moisture in your skin. This oil-free emulsion supplies moisture to dry parts of your skin and draws moisture that the vegetable collagen needs.

HYDRO 12.5 PORELESS CREAM 50g

Oil free cream with abundant moisture

The Cell Water Pump System™ based on osmosis intensifies your skin's ability to maintain moisture. Novel phyto-oligo ingredients calm irritated and sensitive skin and act as an antioxidant.

Approved Whitening function

* Hyaluronic acid 100%

HYALURONIC ACID 100% 20ml

No Paraben, Silicon, Artificial fragrance

The moisturizing component acts with your skin's moisture to tighten your skin surface and attract moisture. The 100% hyaluronic acid is completely safe to use, free from paraben, silicon, and artificial fragrance.

Basic Care
MOIST 12.5

MOIST 12.5 TONER 150ml

Oil-water balanced toner

Water-holding texture's outstanding ability to add elasticity softens dry and rough skin. This oil-moisturizing toner creates a healthy keratin layer and offers a skin-boosting effect, helping supply of nutrients for the subsequent step.

MOIST 12.5 FIRMING ESSENCE 40ml

Oil-water balanced essence

Permeating collagen adds intensity to your skin and treats facial lines. This oil-moisturizing essence contains peptide that performs anti-aging management, improves the skin texture and wrinkles, and strengthens cohesion in your skin. This oil-moisturizing essence also treats the shadow effect on your skin.

Approved Wrinkle improvement function.

MOIST 12.5 FIRMING EYE CREAM 35ml

Oil-water balanced eye cream

This oil-moisturizing eye cream treats the 3D troubles (dark, deep, down) around your eyes, adds elasticity to the skin around the eyes, and creates a dense protection layer, strengthening the skin structure in the eye area.

Approved Wrinkle improvement function.

MOIST 12.5 EMULSION 120ml

Oil-water balanced emulsion

This emulsion is made with rare ingredients gleaned from glaciers and the deep sea to provide excellent moisturizing effects for your skin. The oil-moisturizing emulsion is quickly absorbed into your skin to prevent stickiness, and the highly concentrated and soft texture keeps your skin from becoming dry even in hot and arid environments.

MOIST 12.5 FIRMING CREAM 50g

Oil-water balanced cream

The Collagen+Elastin Lifting Compound™ maintains elasticity in your skin and takes care of sagging lines on the chin and cheeks. This oil-moisturizing cream contains ingredients that add vitality and energy to your skin, allowing you to maintain the elasticity and density of a young skin.

Approved Wrinkle improvement function.

BASE MAKE UP

IPKN PERFUME POWDER PACT (MAT) 12.5c 15g

Powder pact for perfect pore

Contains more than 80% of hybrid powder with vitamin E derivatives

The oil-removal powder offers antioxidant effects and makes your skin dry and tender.

The pore powder pact enables you to be free from the worries of causing lumps on your skin even after applying add-on makeup.

Etc.

But, We are Different!

Let's move on to the next page for more details.

WHY WE ARE DIFFERENT?

Because we have upgraded total all-in-one ODM/OEM(private label) system!

Regular OEM,ODM

Most often ingredients and concept.

Manufacturing.

General Products

“Choose the right way to get your products”

Our upgrade OEM, ODM

Continuous Ultra Mega Trend

1. Various unique sources
(working with great researchers and facilities, continuous developing of new ingredients to be the MEGA TREND)
2. Customizing what clients want
3. Various manufactures including CGMP facility
4. Applying our successful marketing experience
(reflection of customer's need)
5. Fast supporting (documents, test etc.)
6. Fast and convenient communication
(We always think your side)
7. Reasonable price
(We want you to spend more money for marketing)

Unique & Valuable Products

ODM / OEM SPECIALIZED

From our experiences which has been built up since 2002 as we have been concentrating on developing cosmeceutical skin care, natural cosmetic, and unique items, we create products that can lead to the success by meeting the expectation of clients and delivering out-standing marketing know-how from the beginning of the development.

With the highly qualified R&D team in Korea, we develop only superior quality products.

Big Holes & Deep Scratch

DNC

Fine Holes & No Scratch

How to Use

De-pigmentation

Before

After

Step 1. Cleanse

Wash your face with a cleanser that suits your skin type.

- Deep Cleansing or Skin scrubbing might maximize the disk needling effect.
- Relieving stress of your skin & muscle will help to increase the needling effect.

Step 2. Needling

Place the roller on the area you wish to treat and roll it back & forth just for one time.

- Avoid eye and mouth area with thin skin.

Step 3. Application

Apply active ingredient if needed and leave it for about 5 minute.

Step 4. Soothing & Calming

Use cooling roller for calming.

Apply Facial Mask or moisturizer for soothing, cooling & Calming.

Step 5. After Care

Apply Sun block and avoid strong UV light and artificial heat.

BEAUTY DEVICE / DNC-Tri-C

CONVERGENCE

Unique & Innovative Integrated System!

Mini B's unique integrated concept between cosmetic and beauty devices is not just about elegant images but also scientifically proven technology.

As Mini B is divided into two parts, a device and a container, the device part can be selected between LED light therapy or Micro vibration and for the container part, chosen skin care product can be easily filled in .

This hygienic way of applying cosmetic is a solution for reducing contamination issue. Also, Mini B will be an easy communication tool for new & existing customer which will generate re-purchase of the skin care products.

Benefits

- !! Easy to generate "Re-purchase"
- !! Helps Penetration of active ingredient
- !! Hygienic way to apply skin care products
- !! No side effect, No Pain
- !! Attractive & Innovative.
- !! Easy communication tool with a new customer.
